**Subject:** 100RC's Quarterly Partner Call - Spotlight on the EMEA Region | Follow-up Materials

Dear Partners,

Thank you for joining our first quarterly partner call of 2018, which was held live during our EMEA Partner Convening in London on 2 February.

We'd like to extend a warm welcome to our newest Platform Partners – CDM Smith and CSRS. We'd also like to give a special thanks to Adam Slimin from Wood for sharing Wood's recent experience of working with the city of Paris on climate, resilience, and sustainability. That case study can be found in today's slide deck (link below), as well as [here](#) on the Online Community.

For those who could not join the call or wish to revisit the topics discussed, please [click here](#) to view a recording of the call. For access to the presentation, please [click here](#); both of these items can also be found [here](#) on the Online Community.

Additionally, please find attached the following resources for your reference:

- A list of the global points of contact from each of our partner organizations (attachment 1)
- A spreadsheet containing the following lists (attachment 2):
  - Tab 1: A list of partners who attended the EMEA Partner Convening in person
  - Tab 2: A list of partners who dialed into the call
- A summary of the services that each of our partners offer to our member cities (attachment 3)

Attached you will also find details about 100RC's upcoming activities at WUF 9, being held in Kuala Lumpur from Wednesday, 7 February until Tuesday, 13 February.

As always, please don't hesitate to contact us if you have any questions, comments, or would like more information on the topics we covered on this call.

Kind regards,

Nicola and Laura
